PROFESSIONAL HISTORY

Web Development and Python Instructor

My Workforce Future | Kentucky, USA (Remote) | Jan 2022 - Present

- Remotely teach HTML, CSS, JavaScript, Git, and Python to students from varying backgrounds and skill levels across Kentucky
- Created and teach a Git and Python curriculum, which is being used for all future graduating cohorts
- Troubleshoot multiple student issues at once, such as debugging code, to help explain and communicate errors in a way that makes sense to each student
- Find answers to difficult questions and problems by effectively searching and reading through technical documentation
- Moderate student Slack Workspace and coordinate team response to any issues

Warehouse/Delivery Associate

AMPF, INC | Greensboro, NC | 2019-2020

- Served on team that produced, manufactured, and readied between 200-300 daily orders for shipping and delivery
- Analyzed local company delivery route consisting of over 30 stops for optimized travel times between locations, allowing for greater customer engagement and increased customer satisfaction
- Prepared, organized, and processed location-to-location shipments while working with multiple shipping companies to get best shipping price for customer and company

Administrative Assistant

FIRST North Carolina | Greensboro, NC | 2018-2019

- Tracked payment data for the non-profit, which resulted in greater financial knowledge for allocation of grants
- Developed a database of donors and constituents for the state of North Carolina that simplified and modernized communication with non-profit audiences

Sales Representative

Bravo Signs | Greensboro, NC | 2016-2017

- Formed and maintained relations with over 70 clients ranging from small local businesses to larger corporations
- Fielded more difficult calls that came in and closed the sales
- Maintained custom order timetables from production to post-installation, including site inspections, acquiring building permits, and addressing any change orders or obstacles

PERSONAL PROJECTS

Floating Hat Web Design

Freelance Web Design | Covington, KY | 2021-2022

- Freelance Web Design for local business in and around Covington, KY
- Attend and network at local business events while supporting and bolstering local businesses
- Build, launch, and maintain custom made websites using HTML, CSS, and JavaScript
